**RE: Memorializing the New York State Legislature to Pass and Governor Cuomo to Sign Legislation Implementing the Recommendations Contained in the Comptroller's Report Entitled "Municipal Use of Local Development Corporations and Other Private Entities"**

In recent years, the use of Local Development Corporations (LDCs) has exploded in Monroe County. There are now LDCs or related non-profit corporations managing the County's Information Technology assets, Public Safety Communications assets, power generation for Monroe Community Hospital and Monroe Community College, the ice rink at Monroe Community College, and the Civic Center Parking Garage. Unfortunately, these LDCs have been the subject of apparent rampant abuse and little to no oversight, not only here in Monroe County but all across our state. To address these concerns, State Comptroller Thomas DiNapoli has proposed a series of recommendations to the Legislature.

Although the use of LDCs came about as a worthy method of reducing governmental costs and increasing efficiencies, it is clear that there have been abuses that need to be remedied. One problem with existing law is that it is very vague in that it allows the creation of LDCs for purpose of "lessening the burdens of government and acting in the public interest". This vague language needs to be deleted so that LDCs are only created for specific reasons.

Another issue with LDCs is that local governments have used LDCs to borrow money to fund operating costs. While counties are prohibited from borrowing for operating costs, an LDC can be used as an end-around to essentially allow counties to borrow money that would otherwise be illegal. To protect taxpayers from needless and unwise borrowing practices, LDCs should be prohibited from acting as financing vehicles for local governments.

These are just some of the concerns that would be address by the Comptroller's proposed reforms. Clearly, reforming the way in which LDCs can be created would increase transparency in local government and ensure that every level of government is adhering to both the spirit and letter of the law.

Therefore, we urge you to join us in calling on the New York State Legislature to pass and Governor Andrew Cuomo to sign legislation implementing the recommendations contained in the Comptroller's report entitled "Municipal Use of Local Development Corporations and Other Private Entities."

Subject: Authorize a Contract with Health Care Support Advisors, Inc. for the Monroe County Sheriff's Office to Conduct Criminal Background Checks on HCSA Members' Potential Employees

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Patrick M. O'Flynn.

I recommend that Your Honorable Body authorize a contract with Health Care Support Advisors, Inc. (HCSA), in an amount not to exceed \$80,000, for the Sheriff's Office to conduct criminal background checks on potential employees of nursing homes which are served by HCSA, for the period of June 16, 2012 through June 15, 2013, with the option to renew for two (2) additional one-year periods upon mutual consent of both parties. Each renewal will be for an amount consistent with the Sheriff's costs to provide the requested service.

HCSA is a not-for-profit foundation that provides support (i.e. education, scholarship grants to employees, criminal background checks) to for-profit and not-for-profit skilled nursing facilities. This agreement will allow agencies served by HCSA to have background checks performed by the Office of the Sheriff on all of their prospective employees in order to identify those who have a criminal record. The purpose of this endeavor is to help the participating homes and hospitals in their effort to safeguard their residents and enhance the quality of care provided to them. The amount paid by HCSA will allow the Monroe County Sheriff's Office to fund one (1) or more full-time clerks to perform this important function.

**The specific legislative action required is** to authorize the County Executive, or her designee, to execute a contract, and any amendments thereto, with Health Care Support Advisors, Inc. (HCSA), 40 Barrett Drive, Webster, New York 14580, for the Sheriff's Office to conduct criminal background checks on potential employees of nursing homes which are served by HCSA, in an amount not to exceed \$80,000, for the period of June 16, 2012 through June 15, 2013, with the option to renew for two (2) additional one-year periods upon mutual consent of both parties. Each renewal will be for an amount consistent with the Sheriff's costs to provide the requested service.

Subject: Authorize a Contract with O'Brien & Gere for Professional Engineering Services for the Rochester Pure Waters District's Lexington Avenue Tunnel Improvements Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with O'Brien & Gere, in the amount of \$139,883, for professional engineering services, for the Rochester Pure Waters District's (District) Lexington Avenue Tunnel Improvement Project.

The District owns, operates and maintains the Lexington Avenue Tunnel in the City of Rochester. The 7-foot diameter semi-elliptical tunnel was originally constructed in the late 1930's and is located between Mt. Read Boulevard and Lake Avenue. The tunnel conveys combined sewage from the west central area of the City to the Glenwood Screen House and ultimately to the Frank E. Van Lare Wastewater Treatment Facility. The tunnel is also connected to the Lake Avenue Tunnel System constructed as part of the Monroe County Pure Waters' Combined Sewer Overflow Abatement Program (CSOAP) in the 1980's. Nearly 2,200 feet of the 8,000 linear feet tunnel is cut-rock with a concrete invert; the balance is concrete lined. Prior inspections have revealed rock debris in the invert of the unlined sections of the tunnel. Improvements as part of this project will include debris removal to restore the hydraulic capacity of the tunnel, stabilization of the cut-rock crown to restore structural integrity of the tunnel; and improved access at Maryland Street.

Several consultants were considered to provide professional engineering services, with O'Brien & Gere rated the most qualified for the project. O'Brien & Gere proposes to provide basic design and special services in the amount of \$139,883. A cost breakdown of these services is as follows:

Basic Design Services	\$ 96,408
Special Services	<u>43,475</u>
Total	\$139,883

Subject: Authorize a Contract with O'Brien & Gere for Professional Engineering Services for the Rochester Pure Waters District's Lexington Avenue Tunnel Improvements Project

Honorable Board Members:

I recommend that the Administrative Board of the Rochester Pure Waters District authorize a contract with O'Brien & Gere, in the amount of \$139,883, for professional engineering services, for the Rochester Pure Waters District's (District) Lexington Avenue Tunnel Improvement Project.

The District owns, operates and maintains the Lexington Avenue Tunnel in the City of Rochester. The 7-foot diameter semi-elliptical tunnel was originally constructed in the late 1930's and is located between Mt. Read Boulevard and Lake Avenue. The tunnel conveys combined sewage from the west central area of the City to the Glenwood Screen House and ultimately to the Frank E. Van Lare Wastewater Treatment Facility. The tunnel is also connected to the Lake Avenue Tunnel System constructed as part of the Monroe County Pure Waters' Combined Sewer Overflow Abatement Program (CSOAP) in the 1980's. Nearly 2,200 feet of the 8,000 linear feet tunnel is cut-rock with a concrete invert; the balance is concrete lined. Prior inspections have revealed rock debris in the invert of the unlined sections of the tunnel. Improvements as part of this project will include debris removal to restore the hydraulic capacity of the tunnel, stabilization of the cut-rock crown to restore structural integrity of the tunnel; and improved access at Maryland Street.

Several consultants were considered to provide professional engineering services, with O'Brien & Gere rated the most qualified for the project. O'Brien & Gere proposes to provide basic design and special services in the amount of \$139,883. A cost breakdown of these services is as follows:

**Subject:** Authorize a Contract with Bergmann Associates for Professional Engineering Services for the Rochester Pure Waters District's Combined Overflow Abatement System Tunnel Improvements Project

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Bergmann Associates, in the amount of \$187,946, for professional engineering services, for the Rochester Pure Waters District's (District) Combined Overflow Abatement System (CSOAP) Tunnel Improvement Project.

The District constructed the CSOAP tunnel system between the mid-1970s and early 1990s to mitigate the occurrence of combined sewer overflows (CSOs) from the existing sewer collection system to the Genesee River and Irondequoit Bay. The system includes 30 miles of large diameter cut-rock and concrete lined tunnels and six (6) major control structures located from 50 to 150 feet below the City of Rochester. The tunnels and control structures provide approximately 180 million gallons of storage capacity and hydraulically relieve the surface sewers during wet weather events. The District releases captured flows at a controlled rate for treatment at the District's Frank E. VanLare Wastewater Treatment Plant.

Routine inspection of the tunnels, since they began operating over two (2) decades ago, has revealed significant grit and debris accumulation in portions of the tunnel inverts that is affecting overall hydraulic performance and capacity of the system. Further evaluation is required to address removal of the accumulation. Additional inspection is also required to assess the need for any structural rehabilitation.

Several consultants were considered to provide professional engineering services, with Bergmann Associates rated the most qualified for the project. Bergmann Associates proposes to provide basic design and special services in the amount of \$187,946. A cost breakdown of these services is as follows:
