Subject: Confirmation of Reappointment to the Board of Trustees of the Monroe County Library System

Honorable Legislators:

I, Dr. Joe Carbone, President of the Monroe County Legislature, in accordance with Article 5 of the Education Law and Section C7-4 of the Monroe County Charter, do hereby submit to Your Honorable Body for your confirmation the reappointment of Gary A. Brandt to the Board of Trustees of the Monroe County Library System.

Gary A. Brandt resides at 27 Landsdowne Lane, Rochester, New York 14618. His reappointment is effective immediately and his term will expire on June 30, 2026.

The specific legislative action required is to confirm the reappointment of Gary A. Brandt to the Board of Trustees of the Monroe County Library System.

This is a Type II Action pursuant to 6 NYCRR 617.5(c) (26) ("routine of continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

Subject: Authorize an Increase to the Per-Diem Rate for the Monroe County Soil and Water Conservation District Board of Directors

Honorable Legislators:

Members of the Monroe County Soil and Water Conservation Board of Directors (District Board) provide a valuable service to our community. A Conservation district, such as the Monroe County Soil and Water Conservation District (District) and their District Board, functions as a special government district similar to a school or sewer district. Responsible for protecting the soil and water of Monroe County, the District has undertaken this important task for over 50 years.

From working to improve water quality to controlling soil erosion to assisting agricultural landowners and municipalities, the District's work is essential to the everyday functions of our community. While many of these critical areas of work may go overlooked by the average resident, every community member directly benefits. We must seek to foster the continuing achievement of the District.

As the District has evolved, the onus, demand, and requirements placed upon District Board members have significantly increased. Since 1953, funding and grants to the District have increased nearly 2000%. As a result, the requirements for maintaining such funding have increased with higher training, attendance, and participation demands.

Simultaneously, as demand and stipulations have increased, the compensation for District Board members responsible for upholding these practices has not increased since the District's inception. Coupled with inflation, cost of living increases, and more, the District Board is fearful it cannot ensure the future continuity of its organization. Furthermore, as other neighboring Counties have recently increased compensation, Monroe County has remained flat and on the low side of compensation.

On March 15, 2021, the District unanimously adopted a resolution requesting this Honorable Body to authorize an increase in the per-diem rate. The attached resolution states that the District Board is fearful it may not be able to "retain active members" and that a per-diem increase is necessary to prevent this while meeting the "demands of the position." Increased performance standards, including the extent and sufficiency of District Board activity, including operations, financial oversight, and training, require the board members to participate in annual training policy and programs, which can entail evening responsibilities, travel, and overnight stays.

It is imperative to ensure the District Board is stable and secure long into the future. Increasing the per-diem rate for such members will provide the necessary rise to prospective board member interest and stabilize the retention of current board members. The work of the Monroe County Soil and Water Conservation District is incomparable to any other local entity, and its continuity is vital to all residents of our community.

The specific legislative actions required are to:

1. Authorize an increase in the per-diem rate for members of Monroe County Soil and Water Conservation District Board of Director from \$10 to \$60 per day. This rate increase will not apply to County Legislators who serve as ex-officio members of the District Board, as those Legislators are not entitled to receive per-diem pay.
2. Authorize an increase in the per-diem rate of the Chairperson of the Monroe County Soil and Water Conservation District Board of Directors from \$10 to \$85 per day.

This is a Type II Action pursuant to 6 NYCRR 617.5(c) (26) ("routine of continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Per-diems are paid directly by the District. Therefore, this action will have no impact on the revenues or expenditures of the current Monroe County budget.

Respectfully Submitted,

Re: Memorializing Governor Andrew M. Cuomo to Eliminate Mask Requirements for Children in Childcare, Day Camp and Night Camp Settings

Honorable Legislators:

The COVID-19 pandemic has presented challenges to nearly every facet of society. Monroe County successfully recognized the danger of COVID-19 and the science behind transmission rates by adhering to science-based guidelines such as mask and distancing recommendations. Under the new guidance terms and restrictions, children over the age of five would be required to wear masks in childcare, day camp and night camp settings. Initially, the mandate included children above the age of two years old, however this extreme regulation was eventually revised after New York State received significant pressure and criticism. While we appreciate this revision and the diligent efforts of residents to slow the spread of COVID-19, we call on the State to fully eliminate the mask mandate.

Since the onset of the pandemic, Monroe County has followed science that concluded that children are far less susceptible to this illness. Additionally, children have proven to be less likely to experience severe symptoms or hospitalizations. The wealth of scientific data has not reflected any indication that sites like childcare, day camps and night camps are major areas of transmission for COVID-19. There has not been a suggestion that the presented risk to children or adults, especially those who have received the approved vaccines, are any more at risk of transmission through the aforementioned sites than previously studied and recorded.

As is the case for many other industries, childcare facilities throughout Monroe County have been diligent in combatting COVID-19 and adhering to guidelines and common-sense policy to keep the community safe. Children within their care have been kept safe through regular health screenings, proper sanitation, hygiene, and suggested distancing protocols and have proven to be extremely effective in minimizing risk and transmission rates. It is estimated that children spend upwards of 8-10 hours per day at these childcare and camp sites and should not be expected to adhere to such an invasive expansion of their mask requirements for children. It is unreasonable to expect that these children will remain masked for the entirety of their days at camp or childcare facilities.

Therefore, I ask you to join me in urging New York State Governor Andrew M. Cuomo to continue the state's commitment to science and common sense-based guidance and protocol regarding safety protocols at childcare facilities and camps. We strongly recommend further revising and reconsidering these invasive masking requirements included in the childcare, day camp, and night camp program guidance.

**Re: Memorializing the New York State Legislature to Withdraw the Elder Parole Act
and the Fair and Timely Parole Act**

Honorable Legislators:

Currently proposed in the New York State Legislature are two reckless pieces of legislation that present a direct threat to our community's public safety if passed as written. These two acts of legislation stand to release some of the most dangerous criminals back into our community after serving only a portion of their sentence. Doing so not only puts citizens at risk, but also undermines our judicial system.

The Elder Parole Act (S.15a/A.3475) entitles any incarcerated individual who reaches the age of 55 and has served 15 years of their sentence to be automatically entitled to a parole hearing, regardless of the original conditions of their sentencing. Enacting this legislation is an affront to victims, the families of victims, and our entire community.

The Fair and Timely Parole Act (S.1415/A.4231) shifts the standard of discretionary parole to a presumption of release. This legislation states that incarcerated officials, including those serving multiple life sentences are to be granted discretionary release based on their incarcerated behavior and age, not based on the safety of our communities or considering the pain, hurt, and damage to society their crimes have committed.

The passing of these two pieces of legislation will minimize the voices of victims and our community. Violent offenders, rapists, convicted murders, can be released, unless the parole board is able to establish the offender poses an immediate or unreasonable risk to society, undermining judicial discretion, allowing criminals to serve only a fraction of their original sentences.

If these bill are passed, criminals like Thomas Johnson, the killer of Rochester Police Officer Daryl Pearson is eligible for parole after serving only 16 years of his original life sentence without the possibility of parole. Mark Christie, who was sentenced to life for killing 4-year-old Kali Poulton in 1996 could be released in just six years. Serial Killer David Berkowitz also known as "Son of Sam" would be immediately eligible for parole. Laura Rideout, convicted of the murder and cover-up of her ex-husband would be eligible to release after only serving 15 years of her 25 years to life sentence. These are only a handful of offenders who would be eligible for release under these new guidelines.

The New York State Legislature is repeating the same mistakes made with Bail Reform, once again prioritizing offenders and criminals over victims and our community's public safety. Because of this, I urge you to join me in calling on the New York State Legislature to withdraw these two pieces of legislation from consideration, as they present a clear and present danger to our communities and the victims of these crimes committed by the most violent individuals in our society.

Subject: Authorize a Contract with DataWorks Plus, LLC for a Fingerprint and Mugshot Capture and Data Exchange Software System and Installation Services for Law Enforcement

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with DataWorks Plus, LLC in the amount of \$597,800 for a Fingerprint and Mugshot Capture and Data Exchange Software System and Installation Services for Law Enforcement.

The age of the current Monroe Rochester Identification System ("MoRIS") software for fingerprint and mugshot transmission has affected the ability to support the system, meet regulatory requirements, and perform general operational functions, including prompt information sharing with New York State. Additionally, the current platform is unable to interface with other software. The proposed fingerprint and mugshot capture and data exchange software system will interface, transmit, and receive information to New York State Division of Criminal Justice Services, the new Law Enforcement Records Management System, the Jail Information System, the District Attorney case system, and others. The seamless transmission of information will update technology, allow for timely exchange, and minimize data handling to reduce human error.

All local law enforcement agencies will utilize the system and various other agencies will be able to share information. The primary benefit will be to provide a uniform method of collecting, storing, and retrieving fingerprints and mugshots to adhere to the New York State mandate and allow situational awareness to effectively and efficiently react and record criminal activity.

Monroe County anticipates the new system will establish a solid foundation for future state and national reporting and potential regional collaboration.

PS 19 11 5-1011 117
A Request for Proposals was issued, with DataWorks Plus, LLC selected as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract with DataWorks Plus, LLC, 728 North Pleasantburg Drive, Greenville, South Carolina 29607 for a Fingerprint and Mugshot Capture and Date Exchange Software System and Installation Services for Law Enforcement in the amount of \$597,800, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) (“routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment”) and (31) (“purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials”) and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized, uses, is included in capital fund 1929 and in any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither DataWorks Plus, LLC, nor its owner/general manager, Brad Bylenga, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Acceptance of a Grant from the New York State Division of Homeland Security and Emergency Services for the FY2019 Technical Rescue & Urban Search and Rescue Grant Program

Honorable Legislators:

Subject: Acceptance of a Grant from the New York State Division of Criminal Justice Services for the Raise the Age Legislation and Authorize an Intermunicipal Agreement with the Rochester City School District

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Division of Criminal Justice Services in the amount of \$2,393,213 for the Raise the Age Legislation for the period of April 1, 2020 through March 31, 2021, and authorize an intermunicipal agreement with the Rochester City School District in the amount of \$85,000 for an Administrative and Education Liaison provider with Raise the Age youth for the period of July 1, 2020 through March 31, 2021.

Raise the Age legislation was enacted with a number of objectives. It aims to reduce crime victimization; provide meaningful opportunity for a life without the stigma of a criminal record for adolescents who turn away from crime; eliminate the disproportionate incarceration of 16- and 17-year-olds of color in adult jails and prisons; reserve the juvenile placement system for only those young people who present a risk to public safety; and create therapeutic out-of-home placement settings for young people who do not present a risk to public safety. This grant will fund an intermunicipal agreement with the Rochester City School District who will provide an Administrative Specialist/Educational Liaison to work on behalf of detained/sentenced Raise the Age youth who may be/are released to facilitate re-entry into school or other educational programming. This is the second year of funding for this program.

In order to achieve these objectives, the Monroe County Office of Probation – Community Corrections has developed a Comprehensive Plan that utilizes a combination of increased staff resources, specialized training, and expanded community programs and services. Implementation of the Comprehensive Plan will reduce the reliance on out-of-home placement, reduce the reliance on detention, reduce the need for family court adjudication increase the adjustment rate of diversion cases, reduce the rate of probation violations, reduce the rate of long-term recidivism, and arrange for community-based services to improve outcomes for youth.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a \$2,393,213 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Criminal Justice Services for the Raise the Age Legislation for the period of April 1, 2020 through March 31, 2021.

4. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within grant guidelines to meet contractual commitments.
5. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

Honorable Legislators:

I recommend that Your Honorable Body amend the 2021-2026 Capital Improvement Program and the 2021 Capital Budget to add a project entitled "Public Safety Voice and Digital Paging Systems Refresh" in the amount of \$350,000, and authorize an interfund transfer for the project in the amount of \$350,000.

The Monroe County Department of Public Safety has two long-standing dedicated paging systems designed for alerting local emergency responders to incidents within the County. This project is scheduled to be considered by the Planning Board on June 24, 2021.

The specific legislative actions required are:

1. Amend the 2021-2026 Capital Improvement Program to add a project entitled "Public Safety Voice and Digital Paging Systems Refresh" in the amount of \$350,000.

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body amend Resolution 405 of 2017, as amended by Resolution 88 of 2020, Resolution 254 of 2020, and Resolution 409 of 2020, to increase the contract with PrimeCare Medical of New York, Inc. Due to an increasing frequency of Covid-19 in the Monroe County Jail, the Sheriff instituted a policy of Covid-19 testing of all inmates and Sheriff's Office staff. An additional \$33,415 is necessary to cover increased costs of PrimeCare Medical of New York, Inc.'s performance of Covid-19 testing of all incoming inmates at the Monroe County Jail. The recommended increase to the contract ceiling will not affect the contract renewal amounts authorized by Resolution 409 of 2020.

Under this agreement, the contractor has performed Covid-19 testing on all inmates entering the Monroe County Jail in a continued effort to keep Covid-19 out of the facility. PrimeCare Medical of New York, Inc is providing these Covid-19 tests at cost (\$55/test).

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K Baxter.

Part 2: Impact Assessment

Part 2 is to be completed by the County Legislative Body ("CLB") as Lead Agency.

Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted to the CLB for the proposed modification, consolidation or termination of a county-adopted, State-certified agricultural district or otherwise available to the reviewer.

In providing responses to each of the questions, the reviewer should keep in mind that the action proposed is the modification, consolidation or termination of an agricultural district(s). The action is not the land use or activity which will, or may, take place in the district(s). For example, it is not appropriate to consider the effects of management actions that may be taken by individual operators in conducting farming. Agricultural farm management practices, including construction, maintenance and repair of farm buildings, and land use changes consistent with generally accepted principles of farming are listed as Type II actions in 6 NYCRR §617.5(c)(3), and these actions have been determined not to have a significant impact on the environment.

Part 3: Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur," or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short term, long-term and cumulative impacts.

The addition of 90 acres to the Western Monroe County Agriculture District through the addition of two parcels of 45 acres each will not result in any significant adverse environmental impacts. Each parcel is currently a mixture of forested and agricultural scrub land with over 60% prime farmland soils. The parcels are adjacent to residential and agricultural land. Future use of the land will be consistent with typical agricultural uses and purposes as defined by the New York State Agricultural and Markets. The addition of 90 additional acres to the Western Monroe County Agriculture District is a net benefit and will not result in any significant adverse environmental impacts.

Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

SUBJECT: Addition of Two Parcels to the Western Agricultural District

Honorable Legislators:

Article 25AA Section 303-B of the NYS Agriculture and Markets law allows additions to established agricultural districts prior to the normal eight-year review date. The law also requires the county agricultural and farmland protection board to review the proposed additions to the district(s) and make recommendations on the proposal to the legislative body. Resolution number 36 of 2021 adopted by Your Honorable Body directed the Agricultural and Farmland Protection Board to review and make recommendations on additions to the district(s).

Therefore, in accordance with Article 25AA, we are pleased to transmit this report concerning our review, findings, and recommendations on the following three parcels from three landowners to be included in the following agricultural district:

- 1) Western Agricultural District #5: mailing address Ryan A. Perry, 64 Payne Beach Road, Hilton NY, one parcel located in Town of Greece, 017.01-2-1 (45.00 acres).
- 2) Western Agricultural District #5: mailing address Brandon and Elena Kelley, 1604 Clarkson Parma Townline Road, Brockport NY, one parcel located in Town of Parma, 055.02-2-6 (45 acres).

Based on telephone interviews with owners, analysis of USDA soil maps, and site visits, the Board has determined that these parcels are comprised of predominantly viable agricultural land and inclusion of these parcels into an agricultural district would serve the public interest by assisting in maintaining a viable agricultural industry within the respective municipalities.

Sincerely,

The result of this planning project will include a list of actionable items to guide Monroe County and its municipalities to develop a well-connected and safe active transportation network throughout Monroe County.

The Countywide Active Transportation Plan will be 89% funded by the Genesee Transportation Council through the Unified Planning Work Program ("UPWP"), a federally-funded transportation planning program undertaken each year by GTC, its member agencies, and other jurisdictions in the Genesee-Finger Lakes Region. Short Environmental Assessment Form Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Although Part 1 of the EAF indicates there are archaeological resources, wetlands, and the Coastal Erosion Hazard Area (CEHA) in the area, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for sensitive resources such as Wetlands and the Coastal Erosion Hazard Area from state and federal regulatory bodies. It has been determined that no significant adverse environmental impacts from this action will occur.

Part 3 Determination of Significance**

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The action is for the sale of the property and does not include the physical alteration nor disturbance of the property. Wetlands may exist on site, however, the proposed action does not include physical alteration of the site and any future use of the property will need to be reviewed and consistent with the current zoning code and permitting requirements for wetlands from state and federal regulatory bodies if wetlands exist on site. It has been determined that no significant adverse environmental impacts from this action will occur.

Subject: Amend Resolution 133 of 2016 to Amend and Increase the Contract with the Finger Lakes Performing Provider System, Inc. for Delivery System Reform Incentive Payment Program Projects, Amend the 2021-2026 Capital Improvement Program and the 2021 Capital Budget to Add Projects Entitled "Resident Courtyard" and "Friendship Place" at Monroe Community Hospital, and Authorize the Appropriation of Revenue

Honorable Legislators:

I recommend that Your Honorable Body amend Resolution 133 of 2016 to amend and increase the contract with the Finger Lakes Performing Provider System, Inc. from a total amount not to exceed \$1,200,000 to a total amount not to exceed \$1,345,346 for Delivery System Reform Incentive Payment Program ("DSRIP") Projects and to extend the time period through December 31, 2021; amend the 2021-2026 Capital Improvement Program and the 2021 Capital Budget to add projects entitled "Resident Courtyard" and "Friendship Place" at Monroe Community Hospital; and authorize the appropriation of revenue.

The New York State Medicaid Redesign Team is redirecting Medicaid funds to projects that will incentivize health care and community-based providers to form regional collaborations and implement innovative system transformation. The purpose of DSRIP is to fundamentally restructure the health care delivery system by reinvesting in the Medicaid program, with the primary goal of reducing avoidable hospital use. Payments are incentive-based for meeting various benchmarks within the DSRIP plan. The funding varies annually and is dependent on engagement, reporting, and performance.

The "Resident Courtyard" project is to enhance the existing area by establishing sidewalks that lead into a new pavilion with a concrete pad, installing updated lighting, and creating landscaping with trees, bushes and large boulders. It will also include furniture and a secured perimeter with access controls.

"Friendship Place" is the renaming and remodeling of MCH's Dementia Care unit on Friendship 1 West. This phase of the plan entails building a newly designed spa/bathing room with specialized tubs and fixtures, and initiating therapeutic dementia care-centered updates to the dining room and common area by resizing and restructuring for ease of egress and security.

This project is scheduled to be considered by the Monroe County Planning Board on June 24, 2021.

The specific legislative actions required are:

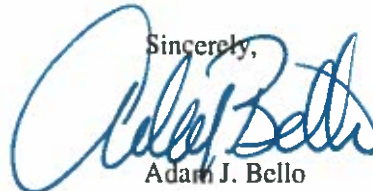

1. Amend Resolution 133 of 2016 to amend and increase the contract with the Finger Lakes Performing Provider System, Inc. from a total amount not to exceed \$1,200,000 to a total amount not to exceed \$1,345,346 for Delivery System Reform Incentive Payment Program ("DSRIP") Projects and to extend the time period through December 31, 2021.
2. Amend the 2021-2026 Capital Improvement Program to add a project entitled "Resident Courtyard" in the amount of \$220,000.
3. Amend the 2021 Capital Budget to add a project entitled "Resident Courtyard" in the amount of \$220,000 and appropriate Delivery System Reform Incentive Payment revenue in the amount of \$220,000 into the capital project to be created.
4. Amend the 2021-2026 Capital Improvement Program to add a project entitled "Friendship Place" in the amount of \$275,833.

Subject: Amend the 2021-2026 Capital Improvement Program and the 2021 Capital Budget to Add a Project Entitled "Space Utilization and Renovation of CityPlace Project," Authorize an Interfund Transfer, and Authorize a Contract with LaBella Associates, D.P.C. for Professional Design Services for the Space Utilization and Renovation of CityPlace Project

Honorable Legislators:

I recommend that Your Honorable Body amend the 2021-2026 Capital Improvement Program and the 2021 Capital Budget to add a project entitled "Space Utilization and Renovation of CityPlace Project" in the amount of \$9,000,000, authorize an interfund transfer, and authorize a contract with LaBella Associates, D.P.C. in the amount of \$370,400 for professional design services for the Space Utilization and Renovation of CityPlace Project.

The Department of Environmental Services, in conjunction with the Division of Real Property Tax Services, performed a space utilization analysis in 2017, with a focus on the office space and functions in the Executive Building (36 West Main Street), CityPlace (50 West Main Street), and the Wegman Building (80 West Main Street). A goal of the space utilization study was to maximize the occupancy of owned office space versus leased office space. Based on the amount of office space that the occupants of the Wegman Building (leased) require, and the availability of office space in CityPlace (owned), this project will renovate the necessary office space in CityPlace in order to relocate staff of the Conflict Defender's Office, Pre-Trial Services, and the Office of Mental Health from the leased Wegman Building to the County-owned CityPlace.

Several consultants were considered to provide professional design services, with LaBella Associates, D.P.C., rated the most qualified to provide these services.

This project was considered and approved by the Monroe County Planning Board on March 25, 2021.

The specific legislative actions required are:

1. Amend the 2021-2026 Capital Improvement Program to add a project entitled "Space Utilization and Renovation of CityPlace Project" in the amount of \$9,000,000.
2. Amend the 2021 Capital Budget to add a project entitled "Space Utilization and Renovation of CityPlace Project" in the amount of \$9,000,000.

3. Authorize the Controller to transfer \$9,000,000 from general fund 9001 to the capital fund to be established for the "Space Utilization and Renovation of CityPlace Project" project.
4. Authorize the County Executive, or his designee, to execute a contract with LaBella Associates, D.P.C., 300 State Street, Suite 201, Rochester, New York 14614, in the amount of \$370,400 for professional design services for the Space Utilization and Renovation of CityPlace Project, and any amendments necessary to complete the project within the total capital fund(s) appropriation.

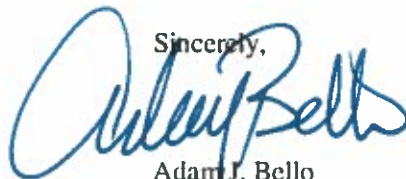

This action is a Type II Action pursuant to 6 NYCRR §617.5(c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be included in the capital fund to be created and any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither LaBella Associates, D.P.C., nor any of its principal officers, owe any delinquent Monroe County property taxes. The principal officers of the firm are:

Steven Metzger, Chief Executive Officer
Jeffrey Roloson, President
Robert Pepe, Chief Financial Officer

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive
