1. INTRODUCTION

Funds from the Genesee Transportation Council (GTC) Unified Planning Work Program (UPWP) were provided as a grant to continue a system for annually reporting changes in land use within Monroe County. Up-to-date land use data is important for transportation modeling and analysis and will be used by GTC as inputs into their traffic simulation model. This land use information will be used to assess changes in land use, identify trends, and help pinpoint “hot spots” of traffic congestion that may become candidates for possible traffic management solutions.

Keeping track of growth is essential to comprehensive land use decision-making. New land uses can place a strain on existing infrastructure and other community facilities. In reviewing development applications, communities should be aware of other proposed developments that could impact the proposed facility and the area in which the project is located. In response to the need to monitor proposed development, GTC and Monroe County Department of Planning and Development (County Planning) initiated a process to identify all proposed projects and approved major projects within a computerized database that can be updated on an annual basis.

The emphasis on major projects is intended to identify significant economic activity that can generate high levels of vehicular traffic and impact traffic operations on a particular highway or within a transportation corridor. This information is obtained as early as possible in the development process and actual construction activity is tracked each year until the project is completed.

County Planning also records detailed data on other proposed projects, which are below the thresholds for major projects. These “minor” projects are not monitored to determine if or when they were approved or constructed; rather, information on the location and type of proposed minor projects may be important in the future to determine the cumulative development impacts of both major and minor projects when considering specific infrastructure improvements or analyzing development trends.

2. LAND USE DATA AND ANALYSIS

This report consists of three primary sources of land use data.

First, County Planning maintains a database of developments that are submitted to County Planning, in accordance with General Municipal Law § 239-l, -m, and -n by the city, towns, and villages of Monroe County.

Second, building permit data from the city, towns, and villages of Monroe County were collected via a survey in conjunction with Genesee/Finger Lakes Regional Planning Council (“G/FL”).

Third, Monroe County Real Property data is used to provide land use classifications of the County as a whole and by each municipality.

Together, this data provides an overall view of the land use changes in Monroe County and is used by GTC in their transportation model to better inform their work as the Metropolitan Planning Organization for the Genesee-Finger Lakes Region. A brief description of each source of data and the key findings are presented below.

2.1 Development Review Major Projects

County Planning records all development projects submitted by the city, towns, and villages of Monroe County in accordance with General Municipal Law § 239-l, -m, and -n. The record of these submissions and responses is known as the *Development Review Database*. Projects that meet certain minimum requirements are deemed major projects. The minimum thresholds for major projects are as follows:

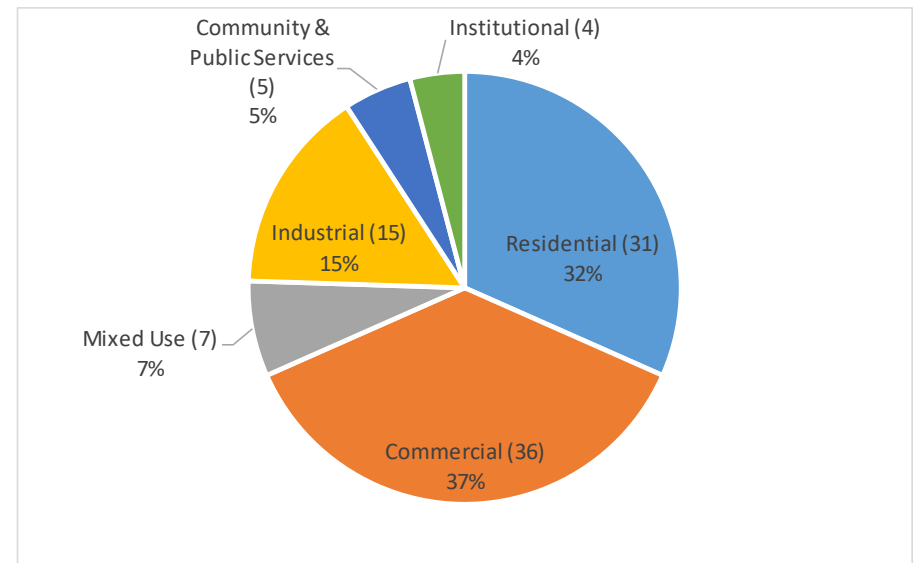

- 5 or more residential lots or dwelling units; or
- 5,000 square feet of non-residential gross floor area; or
- Rezoning for an area of 10 acres or more; or
- Proposed development is a significant traffic generator.

County Planning identified those proposed development projects that meet the thresholds in each calendar year. In the first quarter of 2022, detailed information on the proposed major projects for each municipality was recorded and submitted to the respective municipal officials for their verification of all data for each project. Each municipality was contacted for the current status of projects.

2.1 a Proposed Major Projects in 2021

A total of 98 major projects were proposed in Monroe County in 2021. Among these, 36 were commercial projects; 31 were residential projects; 15 were industrial projects; seven were mixed use developments, six of which including residential development; five were community/public services, including one solar project; and four were for institutional use.

Figure 1 - Percentage of Major Projects by Development Types

Of the 98 major projects submitted to Monroe County in 2021, there were six applications for rezoning an area over 10 acres, which is often the first indication of future development activity. As of Spring 2022, three of the nine rezoning requests have been approved, one was withdrawn, and the rest are still in pending status. There were also 31 residential projects, proposing a total of 1,764 residential units, which includes two senior housing projects, proposing a total of 192 senior housing units. Six of the seven proposed mixed use projects also include 452 residential units.

In 2021, almost half of the major projects were from these four municipalities: Gates (13), Henrietta (13), Penfield (12), and Greece (10). Gates has significant increase of the major development in 2021 and has shown the increasing major project trend in the last four years. Henrietta continues to have most major projects in 2021, as well as in 2020, 2019 and 2017. Other municipalities were showing little fluctuation in major project applications compared to previous years. 19 out of the 30 municipalities in Monroe County have had at least one major project that was proposed in 2021.

Henrietta and Greece had the most major projects in the five-year total count, with 64 and 50 respectively; however, the Village of Pittsford and the Village of Scottsville have had no proposed major projects in the last five years.

The detailed information of these 98 major projects is listed in **Table 1 - Proposed Major Projects in 2021**.

Figure 2 - 2017, 2018, 2019, 2020, and 2021 Major Project Counts

2.1 b Cumulative Status of Major Projects: 1992 - 2021

Cumulative Status of Major Projects is a status report for all major projects in Monroe County between 1992 and 2019, listed by land use. In cases, where a project is not listed under a land use category, the type of development has not been identified.

A major project will be deleted from this cumulative list only:

- If the project has been denied; or
- If the project has been withdrawn; or
- If the construction has been completed.

Table 2 - Cumulative Status of Major Projects: 1992 - 2021 is a list of all active major projects in Monroe County between 1992 and 2021 with their current status. This table is a valuable resource to track projects over multiple years, as many major projects take longer than one year to work through the approval, permitting, and construction process.

2.1 c Cumulative Status of Rezoning: 2003 - 2021

County planning accumulates a list of all rezoning projects in Monroe County that have not resulted in final construction between 2003 and 2020. In cases where a project is not listed under a land use category, the type of development has not been identified.

Rezoning is often the first indication of future development activity, so tracking the rezoning projects is an important step in having full awareness of potential projects.

Table 3 - Cumulative Status of Rezoings, 2003-2021 is an accumulation of all rezoning requests that have not resulted in construction.

2.1 d Potential Development: 2022 - 2024

Supplied by municipalities through the annual Land Use Survey, potential development projects indicate major projects in the pipeline which were not formally submitted for approval in 2021. County Planning collected the information from all municipalities

in Monroe County, and the collected information is listed in **Table 4 - Potential Development: 2022 - 2024**.

2.1 e Final Maps

Four maps are generated to geographically represent many of the projects listed in this report.

Map A - Proposed Major Projects, 2021, shows all of the major development projects submitted to County Planning in 2021;

Map B - Major Residential Projects, 2021, identifies the residential developments of 5 units or more;

Map C - Major Non-residential Projects, 2021, identifies the non-residential projects with at least 5,000 SF of development;

Map D - Other Major Rezoning Projects, 2021, displays rezoning projects that are over 10 acres.

Map B, C, and D use different sizes of dots to differentiate the sizes of the development - bigger dots represent larger projects.

2.2 Land Use Monitoring Survey

County Planning and G/FL collaborated on the collection of building permit data from the City, towns, and villages of Monroe County.

The data from the survey includes the number of residential and commercial building permits for each municipality in Monroe County. The residential building permit numbers are categorized by the type of residential structure, including:

- Single family ("Single Family");
- Two (2) family ("Two Family");
- Three (3) or four (4) family ("Three-Four Family");
- Five (5) or more family ("Five+ Family"); and
- Mobile or manufactured housing ("Mobile Housing").

Residential building permit data is used in this Report to get the basic understanding of the residential development in the local municipalities within Monroe County. The overall residential permit data is listed in **Table 5 - Residential Building Permits Issued, 2021**.

2.2 a Residential Permits in 2021

Residential permit data was supplied by the 30 surveyed municipalities; a total of 703 residential permits (for new construction) were issued in 2021, creating 1,254 housing units, compared to 711 permits and 2,122 units in 2020.

The Town of Henrietta permitted the largest number of residential units (338), comprising 27.0% of the total residential units that were permitted in Monroe County in 2021. Other municipalities that generated a large number of residential units are: Town of Chili - 177 units (14.1%), Town of Webster - 164 units (13.1%), Town of Pittsford - 145 units (11.6%), and Town of Greece - 110 units (8.8%), .

Of the total number of residential permit issued, 83.8% of the permits were issued for single family home, whereas 4.0% for two family home, 0.6% for three to four family home, 6.5% for five or more family home, and 5.1% for mobile/manufactured home. (Figure 3 - Percentage of Housing Type by Permits, 2021)

Even though five or more family home permits only made up 6.5% of the total issued residential permits, they create almost half of the total housing units permitted in 2021. By total unit counts, single family homes comprise of 47.0% of all new permitted residential units; 5 or more family homes comprise of 44.5% residential units; whereas, two-family homes, three to four-family homes, and mobile/manufactured homes comprise 4.5%, 1.2%, and 2.9% respectively of the total units permitted in 2021. (Figure 4 - Percentage of Housing Type by Units, 2021)

2.2 b Residential Permit Trend: 2004 - 2021

Historical data of the number of issued residential permits from 2004 to 2021 shows the residential permit trend and annual

Figure 3 - Percentage of Housing Type by Permits, 2021

Figure 4 - Percentage of Housing Type by Units, 2021

fluctuations. Historically, the total number of permits often mirrors the number of single family permits in Monroe County.

In the range of 17 years, the issued residential permits were decreasing on the whole. Single-family home permits have steadily decreased in the past 17 years. Even though there was a rise in the last couple of years, it is too early to tell that this is the start of a new upward trend for single-family homes. On the other hand, multifamily permits have shown slight increases in a span of 17 years.

Figure 5 - Residential Building Permits, 2004 - 2021

2.3 Land Use Classification

The New York State Office of Real Property Services has developed a simple and uniform classification system to be used in land assessment administration in New York State. The system of classification consists of numeric codes within specific land use categories. There are total of nine general land use categories and each category has several secondary categories. The land use code indicated for each project in the list of approved major projects conforms to this system. (Appendix A - NYS Land Use Code Numbers and Categories)

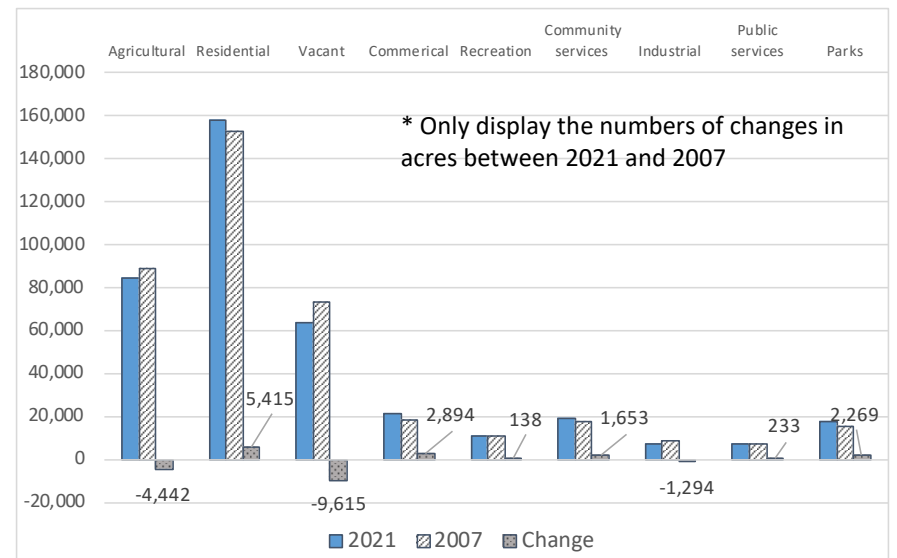

2.3 a Monroe County

This Report includes tables that summarize all of the land use codes by the nine general land use categories and calculate the total number of parcels/properties in each category. The total property acreage was also aggregated for each category. Percentages were calculated for both properties and acreage.

Table 6 - Countywide Land Use Classification Summary provides a compilation of data for all municipalities in Monroe County in 2021. Sorted by acreage, the top three land uses in Monroe County are Residential (40.53%), Agricultural (21.57%), and Vacant Land (16.31%). Ranked by number of properties, the top three land uses are Residential (86.02%), Vacant Land (6.26%), and Commercial (4.74%).

County Planning started to include the Countywide Land Use Classification summary in 2007. Since 2007, the total land area for each land use category over the last 14 years does not have dramatic changes. Comparing data from 2021 and 2007, there is an increase in land use classification for residential (+5,415 acres), commercial (+2,894 acres), community services (+1,654 acres), and open space (+2,269 acres); in consequence, a decrease in land use classification for agricultural (-4,442 acres), vacant (-9,615 acres), and industrial (-1,294 acres).

Figure 6 - Land Use Classifications in Acres, 2007 & 2021

2.3 b Monroe County Municipalities

Table 7 - Land Use Classification Summary by Municipality provides the 2021 Property Classification Summary for each municipality in Monroe County. This breakdown is an instructive way to understand the dominate land uses in municipalities and by extension what types of uses comprise the tax base of each community. Additionally, annually tracking of this data helps communities understand how they are changing and the way things are trending; whether farm loss is occurring; residential development is trending up; etc.

County Planning started to include the Land Use Classification summary by Municipality in 2013. By comparing the 2013 and 2021 residential land use classification data for all the municipalities, almost all municipalities in Monroe County have added residential lands in the last 8 years, except the Town of Clarkson, Sweden, Riga, and Hamlin losing a total of 451 acres residential lands. On the contrary, Town of Penfield, Ogden, Rush, and Parma have gained significant residential lands in the last 8 years, adding 736 acres, 695 acres, 543 acres, and 524 acres residential land respectively.

Both Table 6 and 7 were sourced from the Monroe County Department of Environmental Services, GIS Division, parcel file in January 2022.

Figure 7 - Residential Land Use by Municipalities, 2013 & 2021

3. IMPACT OF THE COVID-19 PANDEMIC

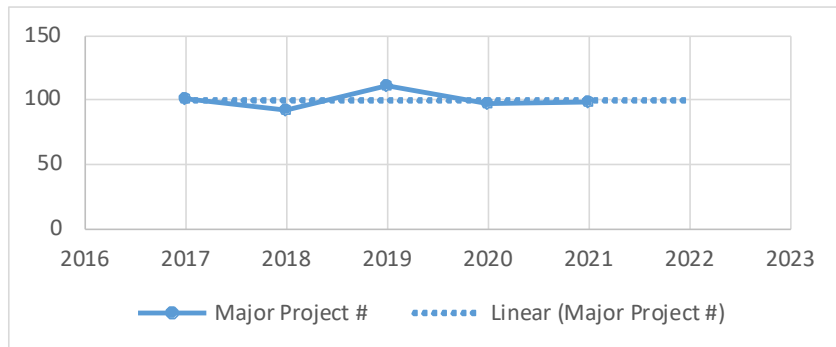

The Covid-19 pandemic has created both a public health crisis and an economic crisis. The impact of the pandemic has infiltrated our daily life and our local economy; inevitably, some changes are likely to stay. Although the federal stimulus programs might have offset some impacts on project development, the study of the development trend of pre and post pandemic will help us better understand the changing land uses and development trends post pandemic in Monroe County.

The following section includes two studies to learn the changes of the recent years before and post the pandemic. The first is to monitor the total number of major projects; the second is to observe the trend of development types. The data is based on major projects proposed in 2017, 2018, 2019, 2020, and 2021.

3.1 Total Number of the Major Projects

A total of 98 major projects were proposed in 2021, compared to 100 in 2017, 92 in 2018, 111 in 2019 and 97 in 2020. There is no unusual change of the year 2021 compared to the previous years in terms of the total number of projects proposed.

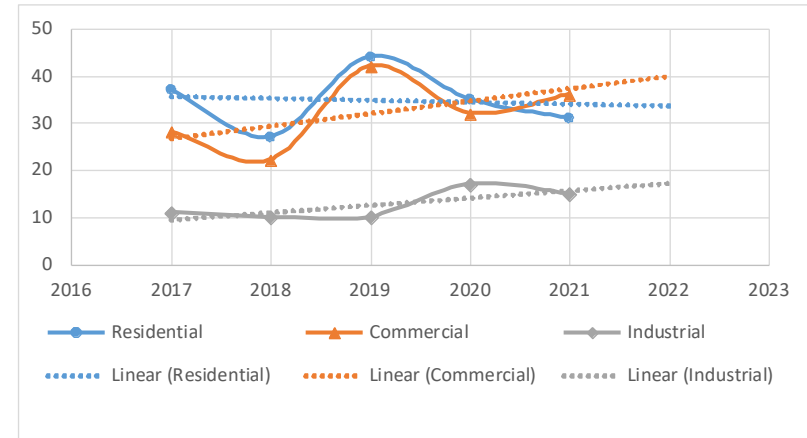

Figure 8 - Total Number of Major Projects in 2017, 2018, 2019, 2020, and 2021

3.2 Development Types

There are three main development types in Monroe County: residential, commercial, and industrial. The gap between residential and commercial is trending smaller in the course of 4 years: 2017, 2018, 2019, and 2020, with residential in the lead; however, in 2021 the proposed commercial projects outnumbered the residential project development. According to the development review submission data, there is a slight decline in residential development and the commercial and industrial development types have not shown a negative impact from the pandemic for 2021.

Figure 9 - Development Types in 2017, 2018, 2019, 2020, and 2021

3.3 Conclusion

The residential development decline in 2021 might be due to the global supply chain crisis as a consequence of the Covid-19 pandemic. It is still too early to determine development pattern changes for Monroe County post-pandemic, considering that the total time lag for the effects of the pandemic to be seen on project development might take two to three years. County Planning intends to continue monitoring the major project counts and development trends in the next few years.

APPENDIX B. DESCRIPTION OF DATA ELEMENTS

Description of Database Elements

The following description of the database elements can be used to interpret the data provided in the attached tables:

Applicant's Name: The name of the applicant as it appears on the development referral form submitted to Monroe County Department of Planning and Development.

Census Tract Number: Small statistical subdivisions of a county determined by the United States Census Bureau.

Development Information: The name used by NYS and the Monroe County Real Property Tax offices to identify property categories.

Land Use Code: The three-digit number used by NYS and the Monroe County Real Property Tax offices to identify type of land use.

Number of Lots: Number of lots resulting from any subdivision of land.

Number of Units: Applies to number of units in an apartment project or a motel/hotel.

Parcel Address: The name of the primary access road to the property.

Project Name: The title or most recognized reference name for the proposed project, if available.

Project Status: Indicates if a project is approved, pending approval, under construction or complete.

Referral Number: This is Monroe County's identification number assigned to each proposed project submitted for our review. The capital letters represent the municipality, the year the project was initially proposed follows, and then a file number was assigned to each project. The letter at the end identifies the type of review (S = subdivision, Z = site plan review, special permit, or any other type of zoning action, and A = airport review).

Residential Conversion: Indicates that an industrial, commercial or vacant building was converted for residential use.

Senior Housing: Indicates that a project is for senior housing.

Special Needs: Indicates that a project is for a special needs development.

Tax Account Number: The County's Real Property Tax number.

Total Acreage: Total acreage of site to be developed.

Total Gross Floor Area (GFA): The total square footage of gross floor area (if available).

Transportation Analysis Zone (TAZ): This code number identifies the location of a property for use in the computer modeling system of Genesee Transportation Council.
